Nana Ama Esaaba Boafo-Adjei

Monitoring & Evaluation | Data Analysis & Research | International Development | Economics | SQL • Python • R • Tableau | Amplifying Impact Through Data

United Kingdom

Summary

Driven by a deep commitment to social change, I use data, structured problem-solving, and critical thinking to uncover what truly drives impact. I thrive on digging beneath the surface—revealing hidden patterns and trends, surfacing risks, and unlocking untapped potential that strengthen organisations, programs and policies.

I bring expertise in Python, R, SQL, Excel, and Tableau to conduct rigorous analysis, design compelling dashboards, and communicate insights with clarity. These tools support my work in developing and implementing monitoring and evaluation frameworks that not only track results but translate complex data into insights that inform strategy and inspire action.

My work lives at the intersection of data, strategy, and purpose—always in service of meaningful, sustainable change.

Experience

The London School of Economics and Political Science (LSE)

Data Analytics Career Accelerator

February 2025 - Present (1 year)

- Applied structured problem-solving and analytical frameworks to identify and address key business challenges.
- Delivered end-to-end data analysis projects utilizing Python, R, SQL, Excel, and Tableau.
- Developed stakeholder-focused dashboards, reports and presentations to support data-informed decision-making.

RDF GHANA LBG.

5 years 5 months

Operations Officer (M&E and Research)

October 2019 - August 2024 (4 years 11 months)

Accra, Greater Accra, Ghana

- Coordinated impact measurement and reporting across teams, translating data and evaluation findings into actionable insights for organizational decision making.
- Designed and enhanced M&E systems, results frameworks and data collection tools which strengthened impact tracking across a network of more than 20 partner institutions.
- Led quantitative and qualitative research to ensure strategies reflected beneficiary experiences, enhancing program relevance.
- Managed and coordinated high-impact technical assistance programmes, providing tailored support to over 2,000 intermediaries and beneficiaries across the agriculture and rural banking sectors.
- Developed policies, operational tools and performance metrics to guide TA delivery, monitor progress and evaluate impact.
- Built and maintained strong stakeholder relationships, fostering trust, alignment and sustained collaboration across teams and partners.

Development Finance Analyst

April 2019 - October 2019 (7 months)

Accra, Greater Accra, Ghana

- Supported M&E, technical assistance and administrative functions to strengthen programme delivery across rural finance and MSME portfolios.
- Conducted macroeconomic and sectoral analyses to strengthen investment due diligence and portfolio decision-making.
- Conducted organisational risk assessments to identify potential operational and strategic risks, and supported the development of mitigation measures.

University of Ghana

Teaching Assistant

September 2016 - August 2017 (1 year)

Ghana

- Assisted faculty with research work, enhancing academic projects and initiatives.
- Attended to inquiries from faculty, students, and clients, ensuring effective communication within the department.
- Performed various academic and administrative duties, contributing to a smooth operational flow at the Department of Economics.

USAID Ghana's Strengthening Accountability Mechanisms Project

Survey Assistant

January 2017 - February 2017 (2 months)

Greater Accra, Eastern and Volta Regions, Ghana

- Conducted surveys across 30 districts in Greater Accra, Eastern, and Volta Regions to enhance governance and accountability.
- Developed strong communication and analytical skills while working on community-driven initiatives.
