Mixed-Methods Design".

Aligning the Public and Private
Sector for an Inclusive Market

Sachi Jain

Oxford MBA '25 | Oxford Seed Fund | 1st Place, Kellogg-Morgan
Stanley Sustainable Finance Competition
San Francisco Bay Area

Summary

People are at the heart of my work's purpose and my skill-set. I thrive in communication-driven roles, excel in collaborative settings, and bring a distinct, social + environmental impact investment perspective. 7+ years of experience in driving positive societal change at the intersection of sustainability, finance, and policy innovation. Experienced in management consulting, ESG risk analysis, and VC investing across climate, tech, and emerging markets. Designed award-winning climate resilience financing solution, a parametric insurance product that incentivizes bangladeshi households to build flood mitigation-- which garnered first place at the Kellogg Morgan Stanley Sustainable Investing Challenge, 2025. As a recent Oxford MBA grad, I am eager to bring my expertise in impact investing and market-driven solutions back to the U.S, and back to the Bay Area. Please reach out with potential employment opportunities that align with my experience in impact investing, to either my Linked-in Inbox, or sachkjin@gmail.com

Experience

Nexterra Capital

Visiting Associate

July 2025 - September 2025 (3 months)

Dublin

Nexterra Capital invests in impact-driven tech ventures, Post Seed- Series A, across emerging markets, mainly Africa and MENA. Investment sectors include healthcare, fintech, telecommunications, agribusiness, and more. As a summer Associate I sourced deals, executed due diligence/financial modelling, and built investor relations across the global market.

Oxford Seed Fund

Investor

February 2025 - September 2025 (8 months)

Oxford

Selected as one of six investors in Europe's largest University-led venture fund, investing in Oxford-affiliated pre-seed to seed startups across sectors. Sourced new investment opportunities, led due diligence (including reviewing pitch decks, conducting founder and expert interviews, and presenting recommendations to investment committee). Fund is sector agnostic with deals in health tech, cloud computing, EdTech, and more.

S&P Global

3 years 2 months

Rating Analyst

July 2022 - June 2024 (2 years)

San Francisco, California, United States

Led and executed ESG ratings for sustainable debt instruments (green bonds, social bonds, sustainability linked bonds, etc.) and executed other ESG products. Sector agnostic, with published reports in sectors such as renewable energy, water and utilities, pollution and emissions, packaging, affordable housing, microfinance, energy efficiency, telecommunications, and more.

Won 2023 External Assessment Provider of the Year from Environmental Finance

Research Assistant, Sustainable Finance

May 2021 - July 2022 (1 year 3 months)

San Francisco, California, United States

Palladium: Make It Possible

Health Policy Analyst

November 2018 - April 2021 (2 years 6 months)

Washington, District of Columbia, United States

Projects include: 'Sustainable Financing Initiative for HIV (SFI) Ethiopia'; 'Leveraging Blended Financing for Family Planning'; 'First Health Impact Bond: Utkrisht'; & 'Landscaping Liberia Private Health Sector'

American Mock World Health Organization - Virginia Tech Chapter

President and Conference Director

May 2016 - April 2018 (2 years)

Blacksburg, Virginia

AMWHO is a National Organization with the aim of encouraging public health debate, research, and student networking by mimicking the World Health Assembly. AMWHO hosts a national conference for chapters to attend and compete. Elected by my peers to serve as the President of the VT chapter of

AMWHO, I led the team to attend the national conference for the first time, and I led the team to host Virginia Tech's first 'public health speaker series'.

Virginia-Maryland College of Veterinary Medicine

Undergraduate Research Assistant

August 2016 - July 2017 (1 year)

Blacksburg, Virginia

I assisted Dr. Kaja Abbas, an Assistant Professor of Infectious Diseases in the Graduate School of Public Health, in conducting research on the Allocative Efficiency of HIV campaigns/efforts in the Dominican Republic using the program Optima. Plotted a country's infection rate, susceptibility rate, and population demographics, against the inputs of current HIV prevention programs.

National Association of States United for Aging and Disabilities

Public Policy Intern

May 2016 - August 2016 (4 months)

Washington DC-Baltimore Area

NASUAD is a non-partisan association dedicated to improving healthcare conditions for the aging and disabled population. I worked with NASAUD as the face of their association, working with members and state constituents on questions about Medicaid and Medicare policy.

College of Agriculture and Life Sciences at Virginia Tech

Undergraduate Research Assistant

September 2015 - May 2016 (9 months)

Blacksburg, Virginia

Published research titled: "Is Diversity on Their Minds? Perceptions of Diversity in an Undergraduate Population Using a Mixed-Methods Design", in the NACTA 2016 Journal.

I worked with Dr. Tiffany Drape on creating Virginia Tech's first survey studying the climate of diversity on campus. The survey reached out to 1,000+ students in the College of Agriculture and Life Sciences and measured their current outlook of the diversity scale on campus, the level of harassment, and their perception of what diversity means and its importance.

Office of International Research, Education, and Development (OIRE)

Undergraduate Research Assistant

May 2015 - August 2015 (4 months)

Blacksburg, Virginia

OIRED is a Virginia Tech department dedicated to private and public research projects in the areas of agriculture growth and women empowerment around the globe. Innovation for Agricultural Training and Education (InnovATE) is a USAID funded project hosted by OIRED dedicated to improving agricultural training and education distribution in countries around the world such as Senegal, Armenia, Mali, Ghana and more.

Education

Saïd Business School, University of Oxford

Master of Business Administration - MBA · (September 2024 - September 2025)

Virginia Polytechnic Institute and State University

Bachelor of Arts (B.A.), Economics · (2014 - 2018)

South Lakes High School

High School Degree · (2010 - 2014)
